

Personal Profile

I am a passionate Frontend developer with knowledge in software design and development. My experience in web development projects has allowed me to acquire skills in using technologies such as JavaScript, ReactJS, MySQL, Django, and CSS. Additionally, I have worked with the SCRUM methodology for project organization and management. I am committed to providing high-quality solutions and ensuring customer satisfaction in every project I participate in.

AGUSTIN DI TOMASO

FRONTEND DEVELOPER

EXPERIENCE IN PROJECTS

Cocinamos por los niños

Frontend

- Cocinamos Por Los Niños is a web system developed with JavaScript, ReactJS, MySQL, Django, and CSS for an informal organization of solidarity cooks. The system has a public website and an administrative interface. As a front-end developer for the project.
- I was responsible for organizing the project and implementing agile methodologies using SCRUM. I worked closely with the client to ensure that all deliverables were completed on time and to their satisfaction.
- You can see the implementation of the front end of the project at <https://deploy-front-beta.vercel.app/>.

Portafolio

Frontend

- As a front-end developer, I understand the importance of having your own portfolio. I
- have developed and deployed my own portfolio using ReactJS and Tailwind. You can see the implementation of the project at <https://agustindt-portfolio.netlify.app/>

WORK EXPERIENCE

Globant (Intern)

08/2022 - 11/2022

- During my internship at Globant, I had the opportunity to continue developing and organizing the project Cocinamos por los Niños, a web system for an informal organization of solidarity cooks, using technologies such as JavaScript, ReactJS, MySQL, Django, and CSS.

EDUCACION

Instituto Tecnico Salesiano Villada

2016-2022

- 4 years of continuous learning in different programming languages and frameworks.
- I learned many soft skills and how to work in a team.

Universidad Católica de Cordoba

2023-Present

- Currently completing the second year of Systems Engineering.
